

Agent

```
graph TD; Agent[Agent] -- Actions --> Environment[Environment]; Environment -- Observations --> Agent;
```

The diagram illustrates the interaction between an Agent and an Environment. The Agent is represented by a large rounded rectangle at the top, and the Environment is represented by a large rounded rectangle at the bottom. A curved arrow labeled 'Actions' points from the Agent to the Environment, and another curved arrow labeled 'Observations' points from the Environment back to the Agent.
